- How to develop LinkedIn Profile
- How to read Financial News
- Dressing skills & Dinning skills
- Corporate Meeting Etiquettes
- How to speak corporate English

16

Basics of Advanced Excel

17

How to file ITR(Income Tax Returns)

Finance Lab is a unique start-up idea to bridge the illiteracy gap of finance even in the educated crowd who have the bookish knowledge but lacks practical implication.

We notice that in many financial seminars/news shows the Finance Guru talks about some topic but most of the audience is clueless even about the basic concepts. Through FINANCE LAB we aim to increase the 27% rate to atleast 50% in few years. This will be possible only if we teach financial terms and its practical implications. This can be done by training them manually so that they can easily adapt the technology development in financial field as well. Financial awareness will also help to minimize frauds and misguidance in financial industry.

Finance Lab focuses on making everyone financially literate by the end of the workshop and also ensures the same by conducting test.

FINANCE LAB can come true with active support by educational institutes and government organisations. India stands at \$3.1 trillion GDP number at present which can be increased by using Finance Lab concept in every educational institute and at national level.
